One petition containing 334 signatures had been made up and circulated by students of the Grayling School while the other which had 64 signatures had been circulated by Milford Parker. Mr. Parker presented both petitions to Pres. Jerome Kessler of the Grayling School Board on Monday.

WHEREAS The tireless efforts of Coach Arthur Allen in behalf of the students at large in the field of sports and good citizenship are recognized by the vast majority of sound thinking, and appreciative local people, and

WHEREAS In his capacity of instructor and coach at Grayling High School he has the loyalty and respect of the student body, that faculty members

WHEREAS It is an established fact that rumors and biased opinion have done much to discredit Mr. Allen in the eyes of the School Board, and

WHEREAS Little or nothing has been done by the present Administration of Grayling High School to meet the problems of the student body academically or from a counseling standpoint, and

WHEREAS After due consideration, it is our collective and individual opinion that a grave injustice has been done in denying Arthur Allen a contract as football coach, Assistant basketball coach and instructor for the ensuing year.

THEREFORE We, the undersigned, petition the School Board of the District of Grayling to investigate and reconsider the whole situation and reinstate Mr. Allen in his present capacities and accept the resignation of the present School and High School Administration.

Mr. Allen is completing his second year as head football coach, second team basketball coach and instructor at Grayling High School. He has not been offered a contract as yet, for the coming school year.

The Board of Education, when asked for a statement by the Association on the controversy, stated through its president, Jerome Kessler, that a special meeting of the board was held Monday evening at the High School to receive the two petitions and to discuss the matter.

"After careful deliberation the board decided to table the matter until the next regular meeting on June 14th at which time the signatures of these petitions are cordially invited to discuss the matter with the Board," the Board president stated.

## National Maritime Day . . .

On May 22 this country will observe National Maritime Day. It will be a very significant day indeed in at least one respect — for, unless the current situation changes drastically, the future of our merchant marine looks dark indeed.

The Coatesville, Pennsylvania, Record gave a two-sentence picture of conditions when it said: "Uncle Sam is falling behind with his merchant marine. We now have the largest tonnage total, but the ships are growing older each day and are not being replaced."

Raymond Moley went into the problem in a News-week article. He showed that a merchant marine of our own is absolutely essential, — yet we lag far down the list of nations, in seventh place, in private ship construction. His conclusion was: "Subsidies in accordance with our shipping acts, which, incidentally, are the only government subsidies that are subject to recapture, plus a sound shipbuilding program can correct the unfortunate and inauspicious state of our maritime affairs."

An excellent plan to create such a program has been offered by a spokesman for the Committee of American Steamship Lines. In his opinion, it would encourage private and institutional lenders to invest up to \$2,500-

000,000 in new U. S. ship construction. Under it the government would insure mortgages on the new ships, under rules and stipulations that would fully protect the taxpayers' interests. The time for action is now, if in future years we are to have a reason for celebrating National Maritime Day.

**MOVING  
IN THE MODERN MANNER**

Today, thanks to trucks and truck-trailers, moving is no longer  
the tedious, time-consuming task it used to be.

Now, a sleek, spacious furniture van draws up to your door,  
a carefully-trained crew takes over, and in a matter of a few  
hours your furnishings are safely and scientifically loaded  
and on their way to their new home, be it 'cross town or  
'cross country.

Moving in the modern manner means moving by motor  
transport—a direct, door-to-door service that eliminates extra  
handling and most crating, and which gets your valuable  
things to their destination swiftly and unharmed.

It's one more way in which trucks and truck-trailers serve  
the people—one more way motor transport benefits you!

You've climbed hills before, we know.

You've come to many a long rise in the

V8 power—the highest horsepower in  
all Buick history, in fact—is the heart  
of this stirring performance.

But you also realize soon enough that  
your tremendous satisfaction at the

more than great power alone.

It comes from the instant response and  
absolute smoothness of Twin-Turbine  
Dynaflow.

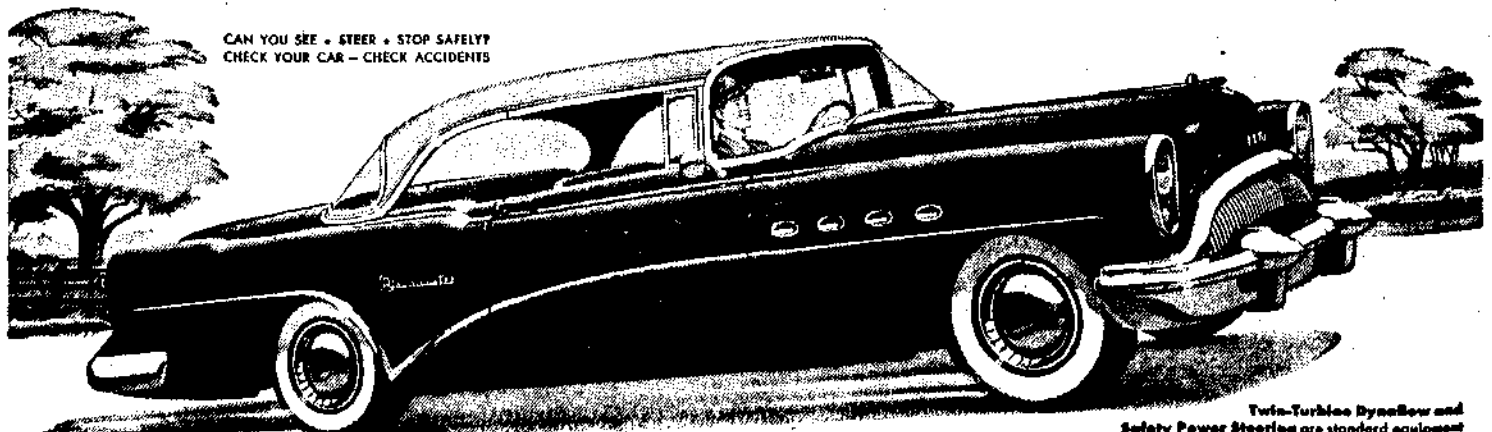

It comes from the velvety luxury of your  
all-coil-spring ride. It comes from the

superb ease of Safety Power Steering.  
It comes from the comforting feel of  
ample roadweight—brought to feather-  
light handling precision by a new geom-  
etry in front-end engineering.

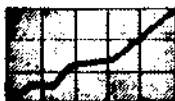

And very definitely, it comes from the  
eye-catching beauty in which you travel  
—the look-of-tomorrow styling that  
graces ROADMASTER today—and with  
the spectacular new panoramic wind-  
shield that is fast becoming the mark of  
true automobile modernity.

We'll be delighted to seat you at the  
wheel of a new ROADMASTER—so that  
you can drive it, try it, feel it.

It costs you nothing to do so—and it can

## Frederic Girl Scout News

Nine Frederic Girl Scouts of Troop No. 1 met Tuesday evening at Frederic school with their leader, Mrs. Wesley J. Smith. Assistant Patrol Leader Judy Johnson presented Jean Sweet with her tenderfoot pin. On Saturday the Troop took a two hour hike. On the hike, the Scouts practiced sending messages in the Morse code by signal flags, which they had made at previous meetings. On May 1st the Scouts picked arbutus bouquets and sold them throughout the community. The girls also plan to collect and sell newspapers to raise funds for their troop.

As a service to the community, the Scouts send "Get-Well" messages to those whom they know are ill.

## Terrorized Woman—

## Local People's Kin

It has been learned here that the Mrs. Calvin Huey, who was terrorized by a Jackson prison trusty recently, is a daughter-in-law of Mr. and Mrs. Leon Huey of Jackson, former well known Grayling residents. And incidentally she is a niece of Mr. and Mrs. Earl Broadbent.

It was at the prison farm home of her father-in-law, who is a foreman at the farm, that she was bound, gagged and robbed by John Thompson, a negro, drug-crazed farm trusty, who then stole her husband's car and escaped with two rifles and ammunition.

Thompson was a houseboy at the Huey residence helping with house and farm chores.

ences said she was at her own home when she received a telephone call from Thompson at the Leon Huey residence, who said her husband's stepbrother, a paraplegic had gotten worse and was calling for Calvin. Since her husband was at work she decided to go. When she entered the house she saw Mr. Apsey was not in his accustomed place and asked Thompson where he was. Thompson told her he had been moved into the bedroom. Not knowing that Mr. Apsey had been taken to University Hospital, Ann Arbor, Mrs. Huey walked into the room. When she found no one in the room she turned and saw Thompson standing in the doorway holding a rifle. He ordered her into a chair where he tied her hands and feet with neckties, stuffed cotton into her mouth and pushed her into a clothes closet. Thompson then took Mrs. Huey's car keys

and money and ran. Captured about a half hour later he was returned to the prison, where he was serving a 1 1/2 to 15 year term for burglary. Since

this last incident he has received a life sentence for his misdeeds.

**FISHING TIPS FOR '54!**  
With the opening of a new fishing season the resolve to get out there and "fool more fish this year" is heard everywhere. With that in mind maybe these few "secrets" wormed out of fellow anglers may help increase your catch this coming spring and summer.

Let's start off with the often under-rated bobber fisherman. How many of you who follow this tried-and-true system realize the importance of the design of the bobber itself? The commonly seen ball-type bobber is the one to avoid! It scares the fish because of its size and visibility—and offers the most resistance to the nibbling fish, thus discouraging him. The "pencil" type is by far the best-shaped from balsa wood. Try it and see the difference in your luck!

**Landing Fish Without a Net**

Panfish anglers rarely carry a net in the boat. They don't need one. But every panfisherman has hooked a big bass or pike, and lost him when the line broke in an effort to lift him over the side. Next time this happens to you play the fish until he's tired. If it's a bass bring it alongside, slide your thumb in the mouth and get a good grip on the lower lip. It can be lifted from

the water without a struggle. Don't try this on a pike! The teeth are too sharp. When the pike is played out bring him alongside, slowly slide the hand toward the back of the head, reach into the pocket behind the gills, then clamp down and swing the fish into the boat. Pike up to 15 pounds can be handled by this method. NEVER put your fingers in a pike's mouth. Teeth lacerations may result in bad infection.

**Keeping Fish to Bring Home**

There's a right and wrong way to keep your fish in good condition, especially on a prolonged two or three day trip. Always clean your fish properly, removing stomach and kidneys which lie along the backbone, and the gills. Wrap fish individually in paper after wiping off slime. Then place in coolest possible place—a refrigerated container, if possible. Always clean container with baking soda and water after each trip. Open refrigerator frequently for change of air because fish spoil quickly in stale air. Even trout will keep their delicate "fresh-caught" flavor up to three days if treated in this manner. Learning to keep fish properly is a must with every true sportsman. They're hard enough to catch! Let's not waste 'em!
